CHANGES AND DEVELOPMENTS

Take Part in the Survey - Electronic Resources in Libraries. How does it work in practice?

The Russian journal "Universitetskaya kniga" continues to explore the theme of the electronic resources acquisition in libraries and invites you to take part in the survey: Electronic resources in libraries - how does it work in practice?

Last year, taking part in a similar questionnaire, specialists of libraries provided invaluable help in understanding the situation in acquisition process, availability of resources and the demand for them, the advantages and disadvantages of their use. Crucial to the analysis proves to be a specific cooperation experience of libraries with commercial suppliers of electronic information.

We offer you to take part in the next survey, which would help to assess the situation in the dynamics. All responses are confidential and will be aggregated for analysis. To proceed to the questions, please, follow the [link](#). Thank you very much for your time and effort!

If you wish to discuss anything raised in this e-Bulletin, or have any questions or other feedback, please don't hesitate to email us at eresources@mippbooks.com. In case you do not want to receive this e-Bulletin, please send us a message with the word "REMOVE" in the Subject line.
