## NEWS AND ANNOUNCEMENTS

### LitRes Mobile Library

Russian ebook platform [LitRes](#) currently offers 130 000 licensed ebooks , 6000 audiobooks and 27000 ebooks in open access. The presented genres cover business, educational and old literature, science fiction and fantasy, modern prose, romance novels, detective stories, opinion journalism, etc.

[LitRes Mobile Library](#) is a service tailored to libraries. It allows a librarian to issue an ebook to a user to any device with internet access. Mobile platforms iOS, Android, Windows are supported.

How does this service work?

- The library concludes agreement and opens an account and receives the administrator login/password with a list of electronic reader's tickets.
- Entering by the admin data and choosing the required book the librarian has the option to issue this book to the reader by specifying the provided ticket and circulation period for this reader.
- Entering his/her card number at LitRes site or in LitRes mobile application, user can download the book and read it offline within the circulation period.
- After the circulation period the book is automatically deleted from user device and available for free reissuing to other readers.

Payment scheme:

- The library pays only for books chosen by the readers.
- The money for the chosen book is withdrawn only once and the book is available for reissuing to other readers for a year since the first checkout.
- The cost of books varies, on the average it is €1.2. The agreement can be concluded for the period of 6 or 12 months. The price starts from Euro €430.

You are welcome send your orders or questions to MIPP Electronic Resources Department at [eresources@mippbooks.com](mailto:eresources@mippbooks.com).

# IN THE SPOTLIGHT

## Russian Open Electronic Library Cyberleninka

Cyberleninka is a Russian scientific electronic library providing free access to academic publications in the electronic form, which depending on the agreements with the rightholders are uploaded under Creative Commons Attribution license (CC-BY). It was launched in 2012 and over short period of time the scientific online library managed to get in top-50 of world electronic repositories of academic information and take the seventh place in Google Scholar by visibility parameter.

Cyberleninka contains more than 970 000 articles, published in the journals of Russia and FSU states. The publications in the library are available in open access and can be found with the help of popular search systems as well as with the full-text scientific search system at the site. Users are able to read articles from any mobile device with internet access.

О НАУЧНОЙ БИБЛИОТЕКЕ ОТКРЫТОГО ДОСТУПА «КИБЕРЛЕНИНКА»

КиберЛенинка — это научная электронная библиотека открытого доступа (Open Access), основными задачами которой является популяризация науки и научной деятельности, общественный контроль качества научных публикаций, развитие междисциплинарных исследований, современного института научной рецензии и повышение цитируемости российской науки. КиберЛенинка строится на основе парадигмы открытой науки (Open Science).

976 593 научных статей в библиотеке

2 000 000 уникальных посетителей в месяц

распространение знаний по модели открытого доступа (бесплатный, быстрый, постоянный, полнотекстовый доступ к научным и учебным материалам в режиме реального времени)

предоставление материалов по лицензии Creative Commons Attribution (CC-BY), позволяющей неограниченно использовать произведения при условии указания авторства

экспорт материалов в открытые международные репозитории научной информации Google Scholar, OCLC WorldCat, ROAR, BASE, OpenAIRE, RePEc, Соционет и др. по протоколу OAJ-PMH

OPEN ACCESS
